

*EU General Data Protection Regulation (GDPR)*

***Solved!***

## WHY?

- **You take good care of your clients so you also care for their data privacy**  
*Your clients can feel safe and protected since you care about them*
- **The General Data Protection Regulation will be enforced starting May 2018**  
*Every organization that holds or processes personal will have to be able to prove compliance with this strict regulation at the latest on May 2018. Your organization too!*

## WHY?

- **90% of all organizations is not ready yet** (source PWC)  
*Compliance with this new regulation proves to be very complicated*
- **Avoid fines** (up to 4% of your global gross revenues or € 20 million)  
*Data privacy and security have become so crucial to our society that the supervisors will strictly enforce this regulation*
- **Protect your reputation**  
*You have to report your privacy and security incidents publicly. Avoiding incidents will protect your reputation and with that your continuity and success*
